

How much does the integrated oil and gas sub sector make out of the energy sector? And what are the expected revenues at worst case scenario for this specific subsector?

Sub-sectors Under Energy Sector

Integrated Oil and Gas Revenue Chart From 2012 to 2018 (Worst Case Scenario)

The first figure is a bar chart that shows the number of companies categorized by their sub-sectors and fall under energy sector. The Integrated Oil & Gas companies make more than 16% out of the total number of companies under the same sector.

The average total revenue of the integrated oil and gas sub-sector is higher than its median over the years from 2012 to 2015, which suggests that the data is skewed to the right.

Finally, the last graph shows the total revenue of the subsector along with the forecasted revenue from 2016 to 2018 (Year 5 to Year 7). This forecast is built over the worst case scenario, yet it expects a growth in revenue even higher than before.
